**Breeders Telephone Number:** 07852 273598

**Purchasers Name:**

**Purchasers Address:**

**Purchasers Telephone Number:**

### Section 3: Health And Welfare

The Breeder has taken every care with breeding, rearing and the welfare of your kitten. The kitten is guaranteed to be in good health at the time of transfer, and it is sold in good faith. To ensure this is the case, the breeder will ensure your kitten is examined at least twice by a Registered Veterinarian before transfer to its new home. The Breeder makes no warranty however as to the health or disposition of the kitten and is sold subject to it being understood that as a living creature it is impossible to predict how it will continue to develop, especially as regards behaviour over which you will have the principal influence. Every effort has been made to avoid any possible inherited conditions. Both of your kitten's parents have been DNA tested at Bristol University Langford Vets and are certified as normal/normal for Polycystic Kidney Disease (PKD) and Hypertrophic Cardiomyopathy (HCM). Your Kitten will leave the breeder with 5 weeks free insurance cover with Agria. **The purchaser must continue their own insurance cover beyond this period.**

Your kitten will be examined by a practising veterinary surgeon twice prior to transfer and the details of the veterinary surgeon will be passed to the purchaser in their 'Kitten Pack' as part of the vaccination record. Your kitten will receive **both** its 1<sup>st</sup> & 2<sup>nd</sup> vaccination including Feline Panleucopaenia Virus (FPLV), Feline Herpes Virus (FHV), Feline Calicivirus (FCV) and Feline Leukaemia (FeLV). The Breeder will supply the Purchaser with a '**Kitten Information Guide**' containing information relating to the kitten's feeding & worming schedule, settling in and other useful information. The Purchaser agrees to read the guide at their leisure but within 48 hrs of transfer of the kitten.

## **Section 4: Purchaser’s Right To Return The Kitten In The Case Of Ill Health**

The Purchaser shall have **14 working days** to have the kitten examined by a practising veterinary surgeon and shall have the right during a period not exceeding **48 hrs** after such examination to return the kitten because of significant ill health. The ill health must not be attributable to its journey home (travel sickness) or change in food and water (upset tummy). On production of a written report from the Purchaser’s veterinary surgeon, the Purchaser will be refunded the full purchase price. Should it become necessary, the Purchaser should be aware that the return of a kitten can be very difficult, especially emotionally and, having drawn the attention of the Purchaser to this, the Breeder cannot be held responsible for any distress caused by the return of the kitten. The purchaser is solely reliable for any cost in the return of the kitten to the breeder. If the kitten is found to be medically deficient due to an untreatable or life-threatening genetic condition/problem within **1 year** from purchase it must be reported to the breeder immediately. A replacement kitten of equal value will be replaced within 6-12 months. This will only be done on sight of a certified veterinary certificate of diagnosis of death, or a verifiable post-mortem necropsy by a competent pathologist, showing the cat’s full details. There are no refunds on the purchase price. Failure to report the illness/death within the time frame renders this guarantee null and void.

**All veterinary costs are at the new owner’s expense.**

**The breeder draws your attention to a condition called ‘FIP’ Feline Infectious Peritonitis.** FIP is an uncommon disease that is not 100% preventable as it is caused by a mutation in a harmless ubiquitous virus for which there is no licensed vaccine. Keb-Belle Ragdolls waives liability for FIP and strongly recommends the buyer takes out ongoing comprehensive veterinary insurance for the kitten as no liability can be accepted for veterinary expenses.

Our kittens are sold strictly as indoor cats only, they must be kept indoors at all times, or closely supervised in a secure garden, and they must not be allowed to roam free outside. The deposit is not refundable.

**The kitten is sold to the purchaser as a companion pet only; breeding from your kitten is not permitted. It is a condition of this sales contract that all kittens are to be neutered before reaching 8 months of age.**

## **Section 5: Date, Declaration and Signatures**

### **a) DECLARATION BY PURCHASER:**

I confirm that I have read all the detail and meaning of this contract and the terms of sale prior to purchase and I fully understand its purpose and reason and agree to the terms. I also confirm that I am purchasing this kitten for myself and not as an agent for a third party. As the new owner, I agree to take proper care of the kitten, ensuring that he/she receives any veterinary treatment which may become necessary throughout its life, including regular worming, flea prevention and vaccinations. I understand the deposit is not refundable.

**SIGNED (Purchaser/s).....**

**Date:.....**

**Print Name:.....**

### **b) SIGNATURE OF BREEDER:.....**

**Date:.....**

I confirm that I am the breeder of said kitten.
